

Meeting minute

MEETING NAME:	WEEK 10 – SOFTWARE ENGINEERING PROJECT MEETING			
DATE OF MEETING	22/06/2020	TIME:	START	9h
			END	10h
MEETING PURPOSE	<ul style="list-style-type: none"> - Check github progress of each member. - Demostate all features of everyone. - Discuss about error and bug in the demo. - Assign task for each member in the group. - Discuss about the difficulties. 	MEETING LEADER	TRUONG MINH DUY	
		Prepared by	TRUONG MINH DUY - Meeting at B9 self-study area.	

1. ATTENDANCES AT THE MEETING

Name	Student ID
NGO NGUYEN DUY AN	1752063
PHAM TUAN ANH	1651006
TRUONG MINH DUY	1652113
VO DONG HO	1752219
TRAN MINH HUNG	1652271

2. MEETING NOTES, DECISIONS, ISSUES

Starting the meeting, we check on the progress of each member on implementing their feature. In 5 members, 3 members have recently commits and regularly updated their features. However, there are still 2 members not committing anything for the last 2 weeks

We then demonstrate each member implemented features and check for any special case or bug within the code. After checking, most of our code did not seems to contain bugs, however, some code still need to check for certain requirements.

Next, we discussed about which task to assign to each member for this week. With the requirement from professor, we assigned each member with the following task:

- Fixing code following the discussion about demo
- Continue to work on assigned features
- Try merging with other braches
- Write down possible testcases for each member assigned features

Finally, we also checked if any on us has any difficulty in the developong process. It seems that all of us have difficulty in learning all the new language and frameworks and developing the project together:

- Some feature in the application need to show more information for better experience for users.
- Our group UI are still need a makeover.
- Our group have no experience in design testcase for testers.

Next week, we will continue to check on each member for any difficulties.

This week, we will focus on fixing code and improve our implementation for our application on GitHub.

1. ACTION ITEMS

Action	Assigned to	Due date	Additional information
Testcases for assigned features	NGO NGUYEN DUY AN	14/07/2020	
Testcases for assigned features	PHAM TUAN ANH		
Testcases for assigned features	TRUONG MINH DUY		
Testcases for assigned features	VO DONG HO		
Testcases for assigned features	TRAN MINH HUNG
