DATE OF MEETING	05/06/2020	TIME:	START	9h
			END	10h
MEETING PURPOSE	<ul style="list-style-type: none"> - Check github progress of each member. - Check PHP functions implemented for getting data - Discuss about new feature needed in the application. - Assign task for each member in the group . - Discuss about the difficulties. 	MEETING LEADER	TRUONG MINH DUY	
		Prepared by	TRUONG MINH DUY - Meeting at library floor 5, A4 building	

1. ATTENDANCES AT THE MEETING

Name	Student ID
NGO NGUYEN DUY AN	1752063
PHAM TUAN ANH	1651006
TRUONG MINH DUY	1652113
VO DONG HO	1752219
TRAN MINH HUNG	1652271

2. MEETING NOTES, DECISIONS, ISSUES

We checked on the progress of each member on fixing layout and create classes on GitHub. In 5 members, we recorded that 2 members have not finish fixing their layout and creating classes and one member has not even create his own branch.

After that, we also check on PHP functions to retrieve data from the database of each member. Using **Postman**, we are about to check the input and output message format for developing.

Next, we discussed about which task to assign to each member for this week. With the requirement from professor, we assigned each member with the following task:

- With provided PHP function, each member now can start using and storing information from database
- Try storing data from IOT server to database
- Continue working on assigned features

Finally, we also checked if any on us has any difficulty in the developong process. It seems that all of us have difficulty in learning all the new language and frameworks and developing the project together:

- When using Volley to get or store data in Android Studio, we still got a lots unexpected errors.
- Some of us still get confusing error when using Paho to publish or subscribe to topic.

- Some members are still testing out new code for implementing their part since previous direction were not working well.

Next week, we will continue to check on each member for any difficulties.

This week, we will continue working features of our project and redesigning our layouts.

1. ACTION ITEMS

Action	Assigned to	Due date	Additional information
	NGO NGUYEN DUY AN	10/05/2020	
	PHAM TUAN ANH		
	TRUONG MINH DUY		
	VO DONG HO		
	TRAN MINH HUNG
